 - 100% recyclable components.
 - BIFMA Level 3 gas lift.
-
- Weight Capacity 120kg.

Our spine is one of the most important parts of our body that gives us structure and support. It plays a vital role, enabling us to perform simple tasks like standing up and sitting upright. Spinely's inspiration comes from the structure of the human vertebrae. The idea is to create a chair that simulates the support of the spine.
