

FORM2

# Medically Sound!

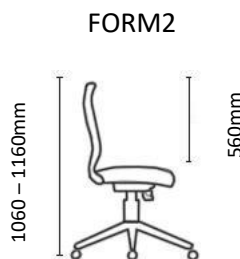

Are you suffering from lower back pain or can't you get comfortable in any chair? If so, then the Form Task Chair is the answer!

Recommended and endorsed by physiotherapists and ergonomists, the Form can be adjusted to suit ANY user. Unlike most other chairs, the Form's free-float mechanism allows the angle and height of the backrest, the seat angle, and the armrests to be independently adjusted and locked into the desired position. This allows the Form to be setup to suit even the most demanding of users. With recyclable components, the Form task chair demonstrates Karo's commitment to both modern office chair design and environmental sustainability.

## Features:

- Height adjustable backrest with a *Permanent Contact* that allows the backrest to either be in constant contact with the user, or locked in position.
- Free-Float Mechanism with an independently adjustable seat angle that can be locked in any desired position.
- Upholstered seat and back with automotive grade high-density moulded foam.
- Choice of armrests, including GALAXY and 4D STAR adjustable arms, or TRIAD fixed height armrests.
- 680mm diameter black nylon 5 star base with 60mm castors for improved manoeuvrability.
- Karo's unique rigid NUGEN footring with durable chrome outer-ring and nylon support structure.
- Various seat heights, viz. 440-570mm (no footring), 580-680mm (with Nugen footring), 650-750mm (with Nugen footring), 680-810mm (with Nugen footring), 750-880mm (with Nugen footring).
- 5 Year Warranty
